

# Eurecat is Buying Spent Nickel Catalysts

Eurecat is looking to acquire spent nickel hydrogenation catalysts as feed for one of our processes. Please contact us if you have potential loads of material that might meet our needs. We can quickly analyze samples from the lot and make you a very competitive offer if the product is suitable for our application.

## CATALYST TYPES DESIRED

---

C-46

Ni-3288

Ni-3298

KL-6616

KL-6564

and other high nickel (>50 wt%)  
catalysts with no sulfur  
contamination

## SPECIFICATIONS

---

Nickel Content: 50-55 wt%

Sizes: 1/20", 1/16", 1/10", 1/8"

Shapes: trilobes, quadrilobes, cylinders,  
pellets
